- Secondary packaging – second layer of protection that consolidates multiple product units together, such as cardboard boxes and packing materials
- Tertiary packaging – outermost layer of protection that hold multiple consolidated units together for transportation such as pallets, pallet wrap, and straps

Packaging is REQUIRED to have the following sustainability attributes:

- Pursuant to [New York State's Hazardous Packaging Law Section 37-0205](#), the vendor is prohibited from offering packaging or packaging components (inks, dyes, pigments, adhesives, stabilizers, or any other additives) with lead, cadmium, mercury, or hexavalent chromium at concentration levels exceeding 100 parts per million by weight (0.01%).

Verification of Packaging Requirements and Additional Desirable Attributes:

At the request of the Authority, the vendor must provide verification of compliance with one or more of the minimum requirements for packaging. The verification documentation may be submitted to the Authority, either as a hard copy or digital file. The following types of verification documentation will be accepted:

- Third-party certification
- Packaging test results
- Compliance certification or affidavit signed by the manufacturer or vendor
- Other acceptable documentation as approved by the Authority

DEFINITIONS:

- Biodegradable – The ability of a product or material to break down in the environment under normal conditions with no specified timeframe. Residues may be left behind. GreenNY specifications restrict the use of the term biodegradable on products and packaging unless the claim is verified.
- Bulk Shipping – The practice of shipping large quantities of a product in a single delivery, as opposed to receiving multiple deliveries of the product in smaller quantities. This cost-effective practice can reduce the amount of material and number of trips needed to deliver the same quantity of a product.
- Compostable – The ability of a product or material to undergo biological decomposition in a commercial or municipal compost facility and break down within a specified timeframe into carbon dioxide, water, inorganic compounds, and biomass suitable for use as a soil amendment, leaving no toxic residue. To be considered compostable per the GreenNY specifications, a product must be certified by the Biodegradable Products Institute (BPI), Compost Manufacturing Alliance (CMA), or an equivalent certifier approved by the State.

- Manufacturer's Packaging – The original packaging provided by the manufacturer. The practice of shipping materials in the manufacturer's packaging means the product is transported to the Authority without being repackaged by the vendor or distributor.
- Order Consolidation – The practice of combining multiple individual orders or shipments into a single delivery.
- Oxo-Degradable Plastics – Plastics that contain additives that allow them to fragment into small pieces when exposed to oxygen. However, the pieces may not completely break down, becoming microplastics that could contaminate the environment.
- Packaging Components – Materials or substances applied to the packaging, including inks, dyes, adhesives, pigments, stabilizers and any other additives.
- Per- and Polyfluoroalkyl Substances (PFAS) – A class of persistent fluorinated organic chemicals containing at least one fully fluorinated carbon atom. They are used to make products water-repellant, grease-resistant, and/or heat tolerant. PFAS have been found in a wide array of consumer and institutional products, including non-stick cookware, stain-resistant carpet and furniture, waterproof clothing, compostable food service ware, firefighting foam, refrigerants, artificial turf, building materials, and more.
- Post-Consumer Recycled Content (PCRC) – Material that has served its intended use and has been collected in a municipal or commercial recycling program and incorporated into new materials or products. PCRC does not include pre-consumer recycled content (also referred to as post-industrial recycled content), which is material diverted from the waste stream during the manufacturing process.
- Primary Packaging – The first layer of protection, the packaging materials that are in contact with the product such as bottles, bags, boxes, plastic inserts and other containers.
- Recyclable – A product is generally considered recyclable if it is accepted for collection by a municipal or commercial curbside recycling program or by a manufacturer or vendor takeback program.
- Right-Sized Packaging – The practice of using packaging that is appropriately sized for the product being shipped. The goal is to minimize excess space or materials while ensuring the packaging is just large enough to protect the product from damage. This cost-effective practice can reduce the amount of material used to deliver a product and can increase efficiency for shipping carriers.
- Secondary packaging – The second layer of protection, the packaging materials that consolidate multiple product units together such as cardboard boxes and void fill.
- Tertiary packaging – The outermost layer of protection, the packaging materials that hold multiple consolidated units together for transportation such as pallets, pallet wrap, and straps.
- Total Recycled Content (TRC) – The sum of post-consumer and pre-consumer recycled content.

C. Product Labeling per GreenNY Specifications

In addition, bidders may be required to provide documentation, at the request of the Authority, that the products and packaging they are offering meet the environmental specifications for this contract.

Over the life of the contract, the vendor must label the environmental attributes of all environmentally preferable products (EPPs) per the environmental specifications in any catalogs, marketing materials, price lists, and online ordering portal associated with this contract. Upon request of the Authority, the vendor must provide documentation that each EPP has the required third-party certification(s), minimum amount of recycled content, or other environmental attributes listed in the environmental specifications. The State of New York reserves the right to require the vendor to remove any environmental claims that are false, vague, misleading or unsubstantiated in catalogs, price sheets, websites or other marketing materials that are provided to the Authority under this contract.

D. Takeback Programs

If applicable, the vendor is encouraged to offer product and packaging takeback services for their commodity offerings. Takeback services may include those offered by the manufacturer or the vendor. When offered, the vendor should provide, at a minimum, a list of accepted products and packaging materials, estimated pricing (if applicable), and contact information.

The verification documentation may be submitted to the Authority, either as a hard copy or digital file. The following types of verification documentation will be accepted:

- Third-party certification
- Product test results

- **Comply with Laws:** Ensure your policy follows State law. For employers based in New York State, this means that the policy must follow the SAFE Leave Act, New York State Human Rights Law, and any other relevant laws and regulations.
- **Offer Implementation Support:** The NYS Office for the Prevention of Domestic Violence (“OPDV”) is able to assist employers in developing and implementing this policy. Employers must provide information to supervisors and human resources, where available, about this technical assistance from OPDV. OPDV can be contacted at workplace@opdv.ny.gov.

Bidders **must** complete and include Attachment 5 - Gender-Based Violence and the Workplace Certification with their bid submission. By submission of this certification, each person signing on behalf of any

Such policy shall, at a minimum, meet the requirements of section two hundred one-g of the labor law.

Section 5.13 – New York State Human Rights Law, Article 15 of the Executive Law

The New York State Human Rights Law, Article 15 of the Executive Law, prohibits discrimination and harassment based on age, race, creed, color, national origin, sex, pregnancy or pregnancy-related conditions, sexual orientation, gender identity, disability, marital status, familial status, domestic violence victim status, prior arrest or conviction record, military status or predisposing genetic characteristics.

The Human Rights Law may also require reasonable accommodation for persons with disabilities and pregnancy-related conditions. A reasonable accommodation is an adjustment to a job or work environment that enables a person with a disability to perform the essential functions of a job in a reasonable manner. The Human Rights Law may also require reasonable accommodation in employment on the basis of Sabbath observance or religious practices.

Generally, Human Rights Law applies to:

- all employers of four or more people, employment agencies, labor organizations and apprenticeship training programs in all instances of discrimination or harassment;
- employers with fewer than four employees in all cases involving sexual harassment; and,

Section 5.15 – Cancellation for Convenience by the Authority

The Authority retains the right to cancel the contract, in whole or in part, without reason provided that the Contractor is given at least sixty (60) days' notice of its intent to cancel. This provision should not be understood as waiving the Authority's right to terminate the contract for cause or stop work immediately for unsatisfactory work but is supplementary to that provision. Any such cancellation shall have no effect on existing Authority agreements, which are subject to the same 60-day discretionary cancellation for cause.

APPENDIX A

Standard Clauses for New York State Thruway Authority Contracts

APPENDIX A**Standard Clauses For New York State Thruway Authority Contracts**

The parties to the attached contract, license, lease, amendment or other agreement of any kind (“the contract” or “this contract”) agree to be bound by the following clauses which are hereby made a part of the contract (the word “Contractor” herein refers to any party and its agents, successors and assigns, other than the Thruway Authority (“Authority”), whether a contractor, licensor, licensee, lessor, lessee or any other party):

1. **NON-ASSIGNMENT CLAUSE.** This contract may not be assigned by the Contractor nor may its right, title or interest therein be assigned, transferred, conveyed, subcontracted, sublet or otherwise disposed of without the previous consent, in writing, of the Authority and any attempts to assign the contract without the Authority’s written consent are null and void.

4. **NON-DISCRIMINATION REQUIREMENTS.** To the extent required by Article 15 of the State Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, sex (including gender identity or expression), national origin, sexual orientation, military status, age, disability, predisposing genetic characteristics, marital status or domestic violence victim status or because the individual has opposed any practices forbidden under the Human Rights Law or has filed a complaint, testified, or assisted in any proceeding under the Human Rights Law. Furthermore, in accordance with State Labor Law §220-e, if this is a contract for the construction, alteration or repair of any public building or public work or for the manufacture, sale or distribution of materials, equipment or supplies, and to the extent that this contract shall be performed within the State of New York, Contractor agrees that neither it nor its subcontractors shall by reason of race, creed, color, disability, sex or national origin: (a) discriminate in hiring against any New York State citizen who is qualified and

5. **WAGE AND HOURS PROVISIONS.** If this is a public work contract covered by Article 8 of the State Labor Law or a building service contract covered by Article 9 thereof, neither the Contractor’s employees nor the employees of its subcontractors may be required or permitted to work more than the number of hours or days stated in said statutes, except as otherwise provided in the State Labor Law and as set forth in prevailing wage and supplement schedules issued by the State Labor Department. Furthermore, the Contractor and its subcontractors must pay at least the prevailing wage rate and pay or provide the prevailing supplements, including the premium rates for overtime pay, as determined by the State Labor Department in accordance with the State Labor Law. Additionally, effective April 28, 2008, if this is a public work contract covered by Article 8 of the New York State Labor Law, the Contractor understands and agrees that the filing of payrolls in a manner consistent with subdivision 3-a of §220 of the New York State Labor Law shall be a condition precedent to payment by the Authority of any Authority approved sums due and owing for work done on the project.

6. **NON-COLLUSIVE BIDDING CERTIFICATION.** In accordance with State Public Authorities Law §2878, if this contract was awarded based upon the submission of bids, the Contractor warrants, under penalty of perjury, that its bid was arrived at independently and without collusion aimed at restricting competition. The Contractor further warrants that, at the time the Contractor submitted its bid, an authorized and responsible person executed and delivered to the Authority a non-collusive bidding certification on the Contractor’s behalf.

7. **INTERNATIONAL BOYCOTT PROHIBITION.** In accordance with State Labor Law §220-f, if this contract exceeds \$5,000, the Contractor agrees, as a material condition of this contract, that neither the Contractor nor any substantially owned or affiliated person, firm, partnership, or corporation has participated, is participating, or shall

participate in an international boycott in violation of the Federal Export Administration Act of 1979 (50 USC App. §§2401 et seq.) or regulations thereunder. If such Contractor, or any of the aforesaid affiliates of the Contractor, is convicted or is otherwise found to have violated said laws or regulations upon the final determination of the United States Commerce Department or any other appropriate agency of the United States subsequent to the contract's execution, such contract, amendment or modification thereto shall be rendered forfeit and void. The Contractor shall so notify the Authority within five (5) business days of such conviction, determination or disposition of appeal.

8. **SET-OFF RIGHTS.** The Authority shall have rights of set-off. These rights shall include, but not be limited to, the Authority's option to withhold for the purposes of set-off any moneys due to the Contractor under this contract up to any amounts due and owing by the Contractor to the Authority with regard to this contract, or any other contract with the Authority, including any contract for a term commencing prior to the term of this contract, plus any amounts due and owing to the Authority for any other reason including, without limitation, monetary penalties, adjustments, fees, or claims for damages by the Authority and third parties in connection therewith.

9. **RECORDS.** The Contractor shall establish and maintain complete and accurate books, records, documents, accounts and other evidence directly pertinent to performance under this contract (collectively, "Records") for a period of six (6) years (or any other longer period required by law) following final payment or the termination of this contract, whichever is later, and any extensions thereto. The Authority, State Comptroller, State Attorney General and any other person or entity authorized to conduct an examination shall have access to the Records during normal business hours at an office of the Contractor within New York State, or, if no such office is available, at a mutually agreeable and reasonable venue within the State, during the contract term, any extensions thereof and said six (6) year period thereafter, for purposes of inspection, auditing and copying. As used in this clause, "termination of this contract" shall mean the later of completion of the work of the contract or the end date of the term stated in the contract. The Authority will take reasonable steps to protect from public disclosure those Records which are exempt from disclosure under State Public Officers Law §87 ("Statute") provided that: (i) the Contractor shall timely inform an appropriate Authority official, in writing, that said records should not be disclosed; (ii) said records shall be sufficiently identified; and (iii) designation of said records as exempt under the Statute is reasonable. Nothing contained herein shall diminish, or in any way adversely affect, the Authority's right to discovery in any pending or future litigation.

10. **IDENTIFYING INFORMATION AND PRIVACY NOTIFICATION.** All invoices or New York State standard vouchers submitted for payment for the sale of goods or services or the lease of real or personal property to the

Authority must include the payee's identification number, i.e., the seller's or lessor's identification number. The number is either the payee's Federal employer identification number or Federal social security number, or both such numbers when the payee has both such numbers. Failure to include this number or numbers may delay payment. Where the payee does not have such number or numbers, the payee, on its invoice or New York State standard voucher, must give the reason or reasons why the payee does not have such number or numbers.

The authority to request the above personal information from a seller of goods or services or a lessor of real or personal property, and the authority to maintain such information, is found in State Tax Law §5. The information will be used for tax administration purposes and for any other purpose authorized by law.

(a) The Contractor will not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability, or marital status, and shall make and document its conscientious and active efforts to employ and utilize minority group members and women in its work force on Authority contracts and will undertake or continue existing programs of affirmative action to ensure that minority group members and women are afforded equal

employment opportunities without discrimination. As used in this clause, "affirmative action" shall mean recruitment, employment, job assignment, promotion, upgrading, demotion, transfer, lay-off or termination, and rates of pay or other forms of compensation.

(b) At the request of the Authority, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, labor union or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability or marital status, and that such union or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that in the performance of this contract all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

The Contractor shall include the provisions of (a), (b) and (c) above in every subcontract over \$25,000 for the construction, demolition, replacement, major repair, renovation, planning or design of real property and improvements thereon except where such work is for the beneficial use of the Contractor. Section 312 does not apply to: (i) work, goods or services unrelated to this contract; or (ii) employment outside New York State. The Authority will consider compliance by a Contractor or its subcontractor with the requirements of any Federal law concerning equal employment opportunity which effectuates the purpose of this section. The Authority shall determine whether the imposition of the requirements of the provisions hereof duplicate or conflict with any such Federal law, and if such duplication or conflict exists, the Authority may waive the applicability of §312 of the Executive Law to the extent of such duplication or conflict. The Contractor shall comply with all duly promulgated and lawful rules and regulations of the Department of Economic Development's Division of Minority and Women's Business Development pertaining thereto.

Qualification for an exemption under this law will be the responsibility of the Contractor to establish to meet with the approval of the Authority.

In addition, when any portion of this contract involving the use of woods, whether supply or installation, is to be performed by any subcontractor, the prime Contractor will indicate and certify in the submitted bid proposal that the subcontractor has been informed and is in compliance with specifications and provisions regarding use of tropical hardwoods as detailed in State Finance Law §165. 22. IRAN DIVESTMENT ACT. In accordance with State Public Authorities Law §2879-c, if this is a contract for work or services performed or to be performed, or goods sold or to be sold, the Contractor subscribes and affirms, under penalty of perjury, that: by signing this contract, each person and each person signing on behalf of any other party certifies, and in the case of a joint bid or partnership each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each person is not on the list created pursuant to paragraph (b) of subdivision 3 of §165-a of the State Finance Law, entitled "Entities Determined to be Non-Responsive Bidders/Offerers pursuant to the New York State Iran Divestment Act of 2012" ("Prohibited Entities List") posted at: <https://ogs.ny.gov/list-entities-determined-be-non-responsive-biddersofferers-pursuant-nys-iran-divestment-act-2012>.

Contractor agrees that should it seek to renew or extend this contract, it must provide the same certification at the time the contract is renewed or extended. Contractor also agrees that any proposed Assignee of this contract will be required to certify that it is not on the Prohibited Entities List before the contract assignment will be approved by the Authority.

EXHIBIT 1

Thruway Authority Guidelines Regarding Permissible
Contacts During a Procurement and
the Prohibition of Inappropriate Lobbying Influence

New York State Thruway Authority

Guidelines Regarding Permissible Contacts During a Procurement and the Prohibition of Inappropriate Lobbying Influence

Chapter 1 of the Laws of 2005, as amended (referred to as the “Lobbying Law”), enacted major changes to the Legislative Law and State Finance Law relative to lobbying on government procurements and procurement contracts. The Lobbying Law created two new sections in the State Finance Law: Section 139-j addresses restrictions on “contacts” during the procurement process; and Section 139-k addresses the disclosure of contacts and the responsibility of offerers¹ during the procurement process. In this regard, a procurement contract means a contract or agreement (including an amendment, extension, renewal or change order to an existing contract where such amendment, extension, renewal or change order is not authorized and payable under the terms of the contract) involving an estimated annual expenditure in excess of \$15,000 for a commodity, service, technology, public work or construction; purchase, sale, lease or acquisition of real property; or revenue contract.

In conformity with the Lobbying Law, during the restricted period² for an Authority procurement, an offerer may only make permissible “contacts” regarding such procurement, which means that the offerer shall contact only the Authority designated contact person(s) for that procurement. In this regard, “contact” means any oral, written or electronic communication with a governmental entity under circumstances where a reasonable person would infer that the communication was intended to influence the governmental entity’s conduct or decision regarding the Authority procurement. Exceptions to this rule include:

- submission of a written proposal in response to a Request for Proposals (RFP), Invitation for Bids (IFB) or any other solicitation method;
- submission of written questions as part of an RFP, IFB or other solicitation method where all written questions and written responses will be provided to all offerers;
- participation in a pre-proposal or pre-bid demonstration, conference or other exchange of information open to all bidders scheduled as part of an RFP, IFB or other solicitation process;

¹ An individual or entity, or any employee, agent, consultant or person acting on behalf of such individual or entity, that contacts the Authority about a procurement during the restricted period whether or not the caller has a financial interest in the outcome of the procurement. A governmental agency or its employees that communicates with the Authority regarding a procurement in the exercise of its oversight duties shall not be considered an offerer.

² The period of time commencing with the earliest written notice, advertisement or solicitation of a Request for Proposals (RFP), Invitation for Bids (IFB), or solicitation of proposals, or any other method for soliciting responses from offerers intending to result in a procurement contract with the Authority, and ending with the final contract award and approval by the Authority, and, where applicable, the State Comptroller.

- written complaints that the Authority designated contact for a procurement fails to respond in a timely manner to authorized offerer contacts;
- negotiation of procurement contract terms with the Authority following tentative award;
- contacts between designated Authority staff and an offerer to request the review of a procurement contract award;
- communications with the Authority regarding an appeal, protest or other review of a procurement, participation in an administrative or judicial proceeding regarding a procurement and complaints regarding a procurement made to the Attorney General, Inspector General, District Attorney or State Comptroller;
- communications between Authority staff and offerers that solely address the determination of vendor responsibility.
- communications relating to the Authority's procurement made pursuant to State Finance Law Section 162(1) undertaken by (i) the non-profit-making agencies appointed pursuant to Section 162(6)(e) by the Commissioner of the Office of Children and Family Services, the Commission for the Blind or the Commissioner of Education, and (ii) the qualified charitable non-profit-making agencies for the blind, and qualified charitable non-profit-making agencies for other severely disabled persons as identified in Section 162(2); provided, however, that any communications which attempt to influence the issuance or terms of the specifications that serve as the basis or bid documents, RFPs, IFBs, solicitations of proposals, or any other method for soliciting a response from offerers intending to result in a procurement contract with the Authority shall not be exempt;
- complaints by a Minority and Women-owned Business Enterprise (MWBE) entity to the MWBE statewide advocate concerning the Authority's failure to comply with the requirements of Executive Law Section 315; and,

An offerer who contacts the Authority designated contact person for a procurement during the restricted period must be prepared to provide the following information: name, address, telephone number, place of principal employment and occupation of the person or organization making the contact and whether the person/organization making the contact is the offerer or is retained, employed or designated by or on behalf of the offerer to appear before or contact the Authority about the procurement.

An offerer that submits a proposal, bid or other response to an Authority RFP, IFB or other solicitation method must: certify that it understands and agrees to comply with these Guidelines regarding permissible contacts during a procurement and the prohibition of inappropriate lobbying influence; and disclose whether any governmental entity has, within the prior four (4) years, found the offerer non-responsible due to a violation of the Lobbying Law or the intentional provision of false or incomplete information. Further, all Authority procurement contracts will contain: a certification by the offerer that all information provided to the Authority

with respect to the Lobbying Law is complete, true and accurate; and a provision authorizing the Authority to terminate the contract in the event such certification is found to be intentionally false or incomplete.

The Authority will investigate all allegations of violations of the Authority Guidelines regarding permissible contacts during a procurement and the prohibition of inappropriate lobbying influence. A finding that an offerer has knowingly and willfully committed such a violation may result in a determination that the offerer and its subsidiaries are non-responsible and therefore ineligible for award of the procurement contract. A second determination of non-responsibility for such a violation within four (4) years of the first such determination shall render the offerer and its subsidiaries ineligible to submit a bid or proposal or be awarded a procurement contract for four (4) years from the date of the second determination. The Authority will notify the New York State Office of General Services of any determinations of non-responsibility or debarments due to violations of the Lobbying Law.

These Guidelines and related forms are available on the Authority's website, www.thruway.ny.gov, under Doing Business; Purchasing Services - Law, Policies and Procedures. Copies of Sections 73 and 74 of the Public Officer's Law are also available on the Joint Commission on Public Ethics website, www.jcope.ny.gov, under Laws. Gender-Based Violence and the Workplace Certification

Gender-Based Violence and the Workplace Certification

New York State Finance Law §139-M requires bidders on competitive state procurements to certify that they have a written policy addressing gender-based violence and the workplace and that such policy meets the following minimum requirements:

- **Share Information:** Employers must provide information regarding gender-based violence where employees can see and access it, including displaying the NYS Domestic and Sexual Violence Hotline information and a gender-based violence and the workplace poster.
- **Refer Employee-Survivors to Services:** The policy must require that the employer refer employees who disclose current or past victim status to the NYS Domestic and Sexual Violence Hotline and/or a local service provider. For bidders outside of New York State, referrals should be made to a local provider or statewide hotline. While referrals are required to be provided by the employer, it is not required for the employee to access services.
- **Prohibit Retaliation:** The policy must clearly state that discrimination or retaliation against employees who identify as victims or survivors of gender-based violence is prohibited.
- **Comply with Laws:** Ensure your policy follows State law. For employers based in New York State, this means that the policy must follow the SAFE Leave Act, New York State Human Rights Law, and any other relevant laws and regulations.
- **Offer Implementation Support:** OPDV is able to assist employers in developing and implementing this policy. Employers must provide information to supervisors and human resources, where available, about this technical assistance from OPDV. OPDV can be contacted at workplace@opdv.ny.gov.

By submission of this certification, each person signing on behalf of any organization certifies, and in the case of a joint submission each party thereto certifies its own organization, under penalty of perjury, that they have and have implemented a written policy addressing gender-based violence and the workplace.
